The aroma of wood smoked food wafting into the air is a sure sign that the grilling season is here. This year, be the envy of your neighborhood with your own Black Olive Pellet Grill.

Durable, tough, built to withstand even the most extreme climates and retain its good looks. Intense heat, high humidity, or below zero temperatures, it doesn't matter! No need to replace rusted out burners, your ceramic grill will endure the harshest of cooking environments.

A legend in its own right, the Black Olive’s patented design and shape gives it the ability to quickly achieve temperatures in excess of 650°F or as low as 150°F, making it perfect for smoking, baking, roasting, grilling and even searing. Never need to worry about over cooking or scorching your food again. The expandable 19 3/8” cooking surface offers plenty of room to cook all of your favorite foods and explore new ones with your family & friends.

Beautifully designed, easy to control, delicious results, and built to last; get ready for the last BBQ you will ever own.

**Grill Accessories**

- **Swing Out Grill**
  Add more cooking surface to your Black Olive Grill! This swing out grill comes with a pivoting support mount for easy access to your primary cast iron grill.

- **Pizza Stone | Heat Deflector**
  Bring a little Italy into your backyard. This versatile piece of cookware will evenly distribute and retain heat longer so your pizza will cook perfectly every time.

- **Bamboo Side Shelves**
  Complement your backyard decor with Bamboo Side Shelves. Due to its resistance to weather and high durability; Bamboo will retain its natural aesthetic for years to come. The shelves lift off easily to double as serving platters.

- **Double Cooking Grill**
  Increase your grilling space with this stackable accessory. Combine with a grill in each elevator position to create maximum grill space.

---

**Triple Spring Hinge**
- The heavy duty triple spring hinge provides support to lift the lid easily, and stay securely in place once open.

**Pellet Advantage**
- Economical and healthier for the environment. Pellet fuel gives your food a more natural taste in comparison to gas or charcoal. As an added benefit pellet takes the mystery out of fuel levels by giving you a visual indication on how much fuel you have left in your grill, perfect for extended smokers or slow roasts.
